## Manager's Korner

October 2018

Tony Toscano

The month of Sept has always been a thoughtful one. Every year we go through the changes of the summer, from the visits up North to see the families and grandkids to them visiting here in Florida, coupled with the Stonehedge snowbirds returning. Not to mention the beginning of budget season. This happens every year, but for some reason it always seems different. Hopefully you are not bored with it, because your enthusiasm is what makes others look forward to their family trips, their vacations and simply just the away from the daily routine life. We all need that routine way more often then not to keep our feet grounded. Keep traveling, keep laughing, for those are the memories we remember best. See you all soon.

Summer has been a hot one, duh, Florida, but nothing unusual. Great rains, beautiful sunsets and relaxing times.

### Projects recap:

**Seal Coat** – (approx. \$16,000) roads done and added 14 stencils for 15MPH and as usual we still get some who don't care and speed as well as blowing through stop signs. I guess if you don't get caught then its OK. Inconsiderate.

**Clubhouse floors polished.** (\$300) We rented a professional machine and scrubbed the entire clubhouse in 4 hours

**Garage and Mailroom roofs replaced-** (\$6300) the mailroom was replaced with a metal roof. The garage with shingles since its less in the public eye

**Gas Heater and Pool Filter grids replaced-**(\$3800)

The pool heater bit it earlier in the year and we waited till Sept to replace since there was no reason to push chlorinated water thru the pipes for months without the need to heat it.

**Air Compressor-** The garage air compressor took a hit during one of our thunder storms. We are in the process of replacing it (approx. a \$250 cost)

**Clubhouse Generator-** We investigated the possibility of adding a generator to the clubhouse.

We had a representative from Generac come out and do a detailed study of our needs. With a discounted Generator it was above \$40,000 for this project. The board decided at this time it was not cost effective. One of the helpful factors in deciding to decline was the fact that Stonehedge is fed from 2 independent electrical locations according to Duke who was called in to do a study as well. One to the South and one from the North. Which means that the likelihood of all 265 homes and the clubhouse being without power is far less likely than most.

**Shuffle courts-** SOB's- Nidy company has a hold on re-surfacing the courts- we contacted 6 different concrete and sports related companies, and all suggested to call Nidy- no one else would re-surface them. We contacted the former chairman of the Shuffle Association for the County and he suggested the same. We signed the contract in July and it will not be until mid-October before they can come. We have been hounding them since we signed the contract because they told us they were only 30 days out at the time. So much for honesty.

**Lawns-** The rains have been a huge plus in the recovery of and maintaining our lawns. Along with our pest and weed control company efforts we are looking very good.

**Coyote Caution:** Slight bit of caution- it has never been an issue and we do not see it being one in the future but...

There have been coyote's sighted at and around the retention pond here at Stonehedge. We have worked on controlling the wandering in the park situation by, yes, believe it or not purchasing Wolf Urine. And, of course where do you buy Wolf Urine but at the Pee Store, really! The wolf is a natural predator of the coyote and since we have put up a barrier around the retention pond the sightings have been minimal but still seen in the park. Recently one strolled down Azalea and went out the back gate. Mmmm? Wonder where he got a clicker!

**CAUTION: They need to eat and if they do not find enough food in their area of nesting, they will attack unattended DOGS AND CATS.**

**RULE REMINDER----- PETS pg 18 #5a**

No pets are allowed in common areas, recreational areas, Clubhouse building, streets except to cross, or yard of other residents without permission.

Permission is interpreted as "permission by the Board"- not that of other residents

**Homes for Sale**

We have received information on 6 homes for sale  
Unit 225 - \$67.5K    191- 60K For Sale by Owner  
Unit 236 -Listed thru Re-Max at \$69.9K  
Unit 122 - \$79K    Unit 84- 55K  
Unit 62 – 72K for sale by owner inquire direct; Unit  
93- 76.5K

I do not need to remind everyone to be safe on the road. If there is an idiot out there – let him be – proving a point that someone is an idiot on the road will not change that idiot into a genius. Enjoy your ride and let him or her find their grave someplace else.

Laugh when you can

- Apologize when you should
- Do not dwell on what you cannot change
- Let go of what you cannot control
- Take charge of what you can

Make forever moments whenever  
Safe travels, enjoy family, love life

**FINAL NOTICE**

**Digital conversion Transition DATE:  
October 9, 2018**

**IMPORTANT NOTE ABOUT THE DIGITAL  
CONVERSION OF OUR PARK'S  
TELEVISION SERVICE:**

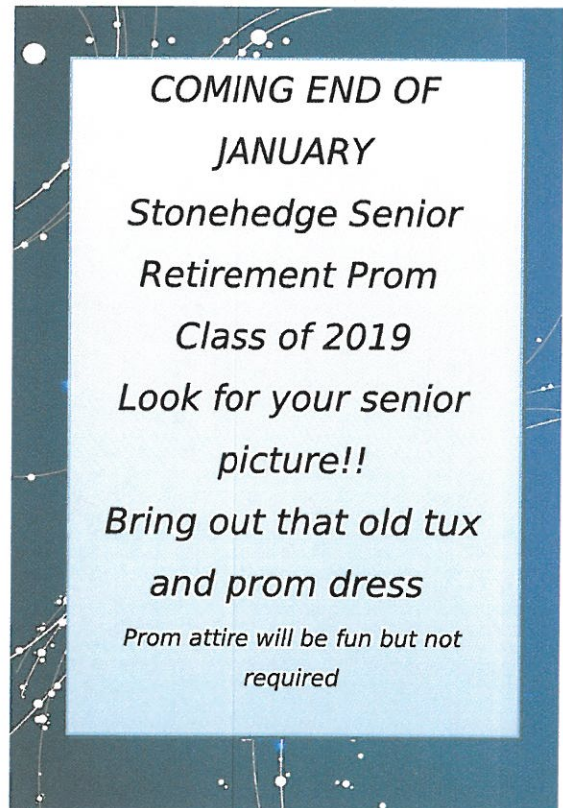

I have been in contact with our representative for our conversion.

1. Each resident will receive a letter from Spectrum 1 MONTH prior to the transition date to explain your options—so expect yours this first week of Sept
2. You can call in to get the new box shipped to your home or you can bring in your old box
3. You get 1 box FREE, if you do not have a box you still get 1 for FREE

4. A TV WILL NOT GET RECEPTION IF YOU DO NOT HAVE A BOX- not even SMART TV,s -so if you have 3 TV's you will get one box free and have to pay for 2 boxes if you want the other TV's to work

**NOTE: about this –I have been told that Samsung smart TV's will accept the signal from Spectrum but only if hooked up directly to the internet – you will get all stations via streaming – but this is for the tech savvy and I cannot explain further – Spectrum tech dept can help if you call them.**

5. Each additional box is \$5.99 per month  
Who does not need a new box:
6. If you have an upgraded service – like a DVR service from Spectrum – you do not need to change the box- if you are not sure **CALL SPECTRUM NOW** and save time when everyone is trying to change
7. **SPECTRUM WILL NOT SEND OUT A REP TO DISCUSS THE CONVERSION**
8. **IF YOU HAVE QUESTIONS AFTER YOU RECEIVE THE LETTER FROM SPECTRUM (sometime in Sept)- COME TO THE OFFICE AND I WILL TRY TO HELP YOU WITH THE CONVERSION**

## The Landscape Article

By the landscape guy Oct '18

Tis the in between season – we can go either way – not that there is anything wrong with that. The rainy season has left most yards in great shape for the fall season. Yards have come thru so far with almost no fungus issues and have seen no chinch bug issues that we are constantly monitoring along with TruGreen our pest control company as well as Evans Lawn service. This year as well as the recent past we have had excellent communication between all service providers, and it shows

Now, about going either way, we can get the regular rains weekly or none at all. That is for Mother Nature to decide and for you to check out the results and adjust your programs to.

The few yards that have been affected this year have been treated and the visual effects will remain for some time until the healthy grass fills in. This will take some effort on your part to inspect to see if the treatments have worked. Best way to see if the treatments have worked is to mark the affected area with a flag and see if it spreads about 3 days later. Also keep an eye on the affected area(s) because weeds normally sprout up before the healthy grass fills in. This may take some time as we know in Florida weeds grow faster than grass, or at least faster than the weeds they call grass here.

This is where you come in to aid the already in place park preventative program. Keep an eye on the dead area for further spreading. Leave the dead grass there and see if it fills in. St Augustine grass grows on runners and if the area is clear of pests then it should fill in with some care.

Any general lawn pest control product will do, Bayer brand is one of the better ones. If you care to sod after the area has been cleaned up, that is the best time to do this or you can wait for the stronger grass to fill in, either way it's your choice.

Another way to combat reoccurring weeds that find their way in between your healthy lawn or grow in those bare spots is to please use a separate weed killer – weed and feed combination fertilizer and weed killers are only recommended in the colder months (Dec, Jan, Feb), I don't recommend them at all. Reason is that cooler months tend to kill out weeds faster and do not need much additional help. Best to put as little product into the environment as possible.

October and November is the season to enjoy seasonal annuals and the cool weather blooming plants.

**NOTE: I cannot stress this enough. When looking for seasonal plantings (Annuals) or even year-round plantings (Perennials) , its best to check out the neighborhood and see what has survived and what looks good. Use the experience that is around you Use the internet, it's the next best source other than your neighborhood. Tarpon Springs is in ZONE 9 when choosing new plants.**

I have direct experience with their garden shops and the knowledge is limited at best. PLEASE DO NOT TAKE THE PLANT LABELS SERIOUS ON THESE GARDEN CENTER PLANTS. If you insist on shopping at these garden centers I suggest you ask a test question or 2 to see if you get the correct answer, such as "are weed and feeds good to use year round?" The answer is "NO" unless you have a completely spotless lawn that needs no other attention, and I doubt that in Florida. There is a reason these stores are called "do it yourself"

October is also the time you should look at the plants that did not make it thru the hot summer months or those that took extra special care. Unless you have the extra time to fuss with them its best to consider options. This may mean that they are not suited to take the heat and should be changed out. If you care to, replace them with more suitable plants that can take the torrid summer months.

It's also the time to make sure you are prepared for the next years growing season. This can be done by strengthening the lawn you have. A good all-purpose fertilizer for this time is one with a high end number:

To recap fertilizers from previous articles: (the following have been detailed much further in previous articles) Using an example of a good fertilizer labeled as a 18-5-10

18- The first number is the nitrogen parts per million for greening

5- is for phosphorous, which is a natural element in the Florida soil, so you do not need to add any at this stage

10- is for potassium (potash) which helps strengthen the root system.

You have the next 2 months to be able to add this to you soil to strengthen it even more than the natural rains did.

Over the next 2-3 months we will be discussing the do's and don'ts of fall and winter gardening. The current Don't is – DO NOT OVERWATER if we get cooler weather (80's in the day, 70's night)

See you next month

It's a good day on the green side of the grass

## ACTIVITY COMMITTEE NEWS

Janet Purtee, Secretary

### OCTOBER

It's the time of year when Stonehedgers are thinking about the upcoming season, and we've got northerners heading back daily. Can't wait to see everyone and start our fantastic year! Many activities planned throughout the season, so come join us!

#### October activities planned:

**October 17** - Oktoberfest hosted by the SRA. Free to everyone! German food including brats will be provided. Bring a dessert to share. BYOB. Entertainment will be T.J. Brinson. Check board for details! See you there!
